BONITA SPRINGS FIRE CONTROL & RESCUE DISTRICT

27701 BONITA GRANDE DRIVE, BONITA SPRINGS, FL 34135

September 20, 2018

To: Chairman Lohan & Board of Fire Commissioners,

Re: Budget 2018-2019

For the Fiscal Year 2018-2019, the Bonita Springs Fire Control and Rescue District has set four budgetary goals, the achievement of which is intended to meet all current operational needs and solidify the District's financial standing for the future.

The first goal is to render the District debt-free by ensuring its facilities and rolling stock are paid for.

The second goal is to enhance the capital improvement plan to include funding for future Station 28 and its firefighting apparatus.

The District's third goal is to pursue increasing the depreciation reserves as a means to replace current capital items that have reached their end-of-life cycle.

Finally, the Board of Fire Commissioners will have the option to lower the millage (tax rate) levied for fire protection.

Accomplishing these budgetary goals will promote the District's current and future financial stability, which is necessary to achieve our primary mission of saving lives and protecting property.

Sincerely,

Joseph V. Daigle Fire Chief

Budget Planning Calendar For Fiscal Year 2018-2019

| May 10, 2018 | In House Budget Kick off meeting |
|--------------------|--|
| June 1, 2018 | Proposed Taxable Values from Lee County |
| June 7, 2018 | Budget requests are due to Finance |
| June 28, 2018 | Internal Budget Workshop 9:00am - Station 4 |
| July 1, 2018 | Lee County Certifies Taxable Value |
| July 5, 2018 | Budget Workshop 3:00pm – Station 4 |
| July 9, 2018 | Board to set proposed preliminary millage for DR 420 5:01pm - Station 4 |
| August 14, 2018 | Internal Budget Workshop 9:00am – Station 4 |
| August 23, 2018 | Budget Workshop 3:00pm – Station 4 |
| September 10, 2018 | Tentative Millage and Tentative Budget 5:01pm – Station 4 regular meeting |
| September 24, 2018 | Adopt Final Millage and Final Budget 5:01pm - Station 4 |

Date needs to be decided of the final budget hearing.

Tentative advertisement shows up on the TRIM notice Final needs to be advertised within 15 days after the tentative meeting, Final meeting must be held 2-5 days after advertisement runs in paper.

Mission Statement

To preserve life and property and promote public safety through strong leadership, management, professionalism, and integrity.

OUR CORE VALUES

To Residents:

We owe the residents of Bonita Springs the highest quality service possible, characterized by responsive-ness, integrity, and professionalism. We will continually strive for quality improvement.

To The District:

We owe the Bonita Springs Fire Control and Rescue District our full commitment and dedication. We will always look beyond the traditional scope of our individual positions to promote teamwork and organizational effectiveness.

To Each Other:

We owe each other a working environment characterized by trust and respect for the individual, fostering open and honest communication at all levels.

To Ourselves:

We owe ourselves personal and professional growth. We will seek new knowledge and greater challenges and strive to be at the leading edge of our profession.

OUR FOCUS

The District will focus its efforts on responding rapidly and safely to emergencies, providing appropriate interventions, community outreach, and rigorous training to constantly improve our safety, skills, and readiness.

OUR GOALS

- Develop or improve our organization to effectively administer and manage the resources of the District.
- Develop or improve a system for minimizing the impact of fires, disasters, and other emergencies on life and property.

- Provide an effective Emergency Medical Service to lessen the morbidity and mortality of the sick or injured.
- Provide an effective Fire Prevention and Public Education System to improve the quality of the lives and safety of the citizens we protect.
- All personnel and staff will do their best, enjoy their job, and promote safety for themselves, their co-workers, and the organization.

Joseph V. Daigle, Fire Chief

General Information

Located in Southwest Florida, along the pristine beaches of the Gulf of Mexico, Bonita Springs makes up the southern most edge of Lee County. The beauty of Bonita Springs, along with abundant natural amenities, has drawn increasing numbers of tourist and year-round residents. With three miles of sandy shoreline for sunning and shelling, and warm gulf waters ideal for swimming and fishing, the steady growth of residential developments, restaurants, shopping centers and increasing job opportunities have an estimated 51,000 permanent residents and an additional 47,000 seasonal residents calling Bonita Springs their home.

In the mid 1800s, a survey crew from the Army Corps of Engineers was sent to south Florida to survey and map the area. The crew set up its main camp on a creek called Corkscrew, which later became known as Surveyor's Creek. In 1888, when the first pioneers arrived, they stayed in the surveyor's old camp and named the settlement Survey.

In 1912, a group of investors purchased a track of land in Survey and divided it into separate lots, with a town center and park. The investors were concerned, however, that newcomers would not be attracted to a town called Survey, so they renamed it Bonita Springs and called the creek the Imperial River.

The town of Bonita Springs grew slowly for many years, with its economic basis centered on citrus, fishing and seasonal tourism. Bonita Springs is now considered one of the fastest growing areas in Lee County.

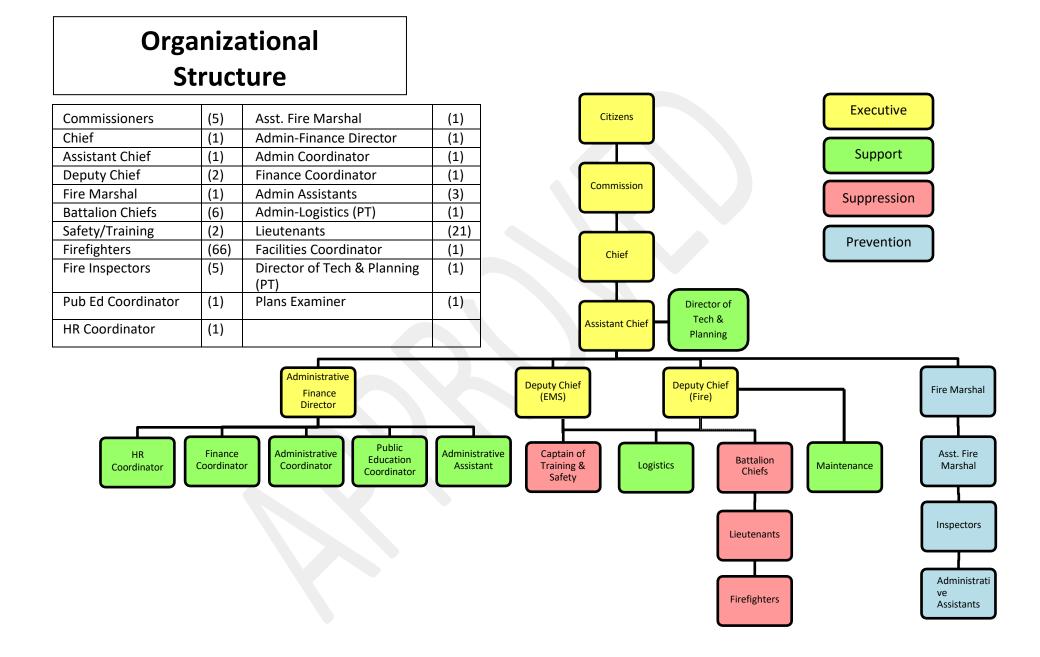

As the town began to attract new residents and businesses alike, the need for a fire department was evident. Established in 1950 as a small volunteer unit, the department was designated as an independent taxing district in 1965. This important designation meant that the fire department would receive funding from property tax dollars collected in the community in order to fund equipment, fire stations and staff.

Today, the Bonita Springs Fire Control and Rescue District is one of the largest in the area. The district has 116 full-time employees, two (2) part-time employees and five (5) elected commissioners; seven (7) stations, with a response territory of 72-square-miles in southern Lee County. The fire district is governed by a five-member board of fire commissioners, who are elected by the public.

Since the 'Great Recession' from December 2007 through June 2009, property values in Bonita Springs have increased from the low of \$7,411,773,872 in 2012-2013 to the property value of \$11,057,963,073 for 2018-2019. This is an overall increase of 49.2% from 2012-2013.

Below is a chart of the last seven years, including Millage rate, Gross Ad Valorem Revenue, Gross Taxable Value and the amount of budgeted Personnel per year.

| Year | Millage Rate | Gross Ad Valorem Revenue | Gross Taxable Value |
|-----------|-----------------|-----------------------------|------------------------|
| 2012-2013 | 2.2353 | 16,567,538.14 | 7,411,773,872.00 |
| 2013-2014 | 2.3805 | 18,100,609.38 | 7,755,774,654.84 |
| 2014-2015 | 2.3800 | 19,396,295.14 | 8,149,703,839.00 |
| 2015-2016 | 2.3500 | 20,858,243.94 | 8,875,848,487.00 |
| 2016-2017 | 2.3500 | 22,879,660.87 | 9,736,025,904.00 |
| 2017-2018 | 2.3300 | 24,618,680.12 | 10,565,957,135.00 |
| 2018-2019 | 2.3100 | 25,543,894.70 | 11,057,963,073.00 |

Budget Process

The Budget process is very important to the District. It is an essential element of financial planning, control, and evaluation. The District prepares a comprehensive budget for each fiscal year, beginning October 1 and ending September 30.

The District is required to have a balanced budget for every fiscal year. In order to balance the budget, the District will use any revenue, fund balance, transfers, and loans available to equal the total expenditures, including capital outlay and reserves.

The District has a set procedure for completing the budget as described in Policy 881 Budgetary Procedures in the District's Policy and Procedure Handbook.

The budget committee consists of the department heads, the finance department, the Fire Chief, the Assistant Chief, and the Deputy Chiefs. The finance department will send out a list of tentative dates for internal budgeting meeting. It will prepare a budget calendar following the Manual for TRIM Compliance. The budget is adopted in compliance with statutory requirements. One of these strict requirements and a timetable guide for noticing budget hearings to ensure residents have an opportunity to be heard. Upon approval, the annual budget becomes the authorization to expend funds in the new fiscal year.

The District's budget is prepared on a modified accrual basis. The modified accrual basis recognizes revenues when they become both measurable and available. Revenues received within sixty (60) days after the fiscal year end are considered measureable and available. Expenditures under the modified accrual basis are recognized when the fund liability is incurred.

At the first meeting, each department head will present their budget to the Fire Chief and budget committee. The finance department will print out prior year budget-versus-actual and current year budget-versus-actual year to date reports for comparison and analysis.

Revenue

The revenue budget process includes projecting interest income and service revenue based on historical trends and other known factors.

Pursuant to Section 191.009 (3), F.S, the District may impose user charges in accordance with a reasonable schedule of charges.

Pursuant to Section 191.009 (1), F.S, the District may levy and assess ad valorem taxes on all taxable property in the District to construct, operate, and maintain District facilities and services, to pay the principal of and interest on, general obligation bonds of the District, and to provide for any sinking or other funds established in connection with such bonds. In accordance with the statute, the ad valorem property taxes for operating purposes, exclusive of debt service on bonds, may not exceed 3.00 mils.

The District will always strive to assess the lowest millage possible and still provide the highest level of service for the residents of Bonita Springs, while keeping the District financially sound.

Operating Expenditures

The finance department will prepare a list of expenditures that are contractual, such as, service agreements and leases. The finance department will obtain the premium cost estimates from the

insurance agent for the renewal or issuance of all required insurance coverage, applicable retirement plan, and social security rates.

Capital Expenditures

The Capital Expenditure budget consists of the funds needed to build and replace new stations, acquire new equipment, and other assets with estimated useful lives greater than one year. Each department head will compile a list of capital expenditure items and present them with their regular operating budget. The estimated cost of the capital items is determined by submitting cost estimates from vendors or other knowledgeable sources.

Budget Adoption

Florida law provides strict requirements and timetables for establishing millage rates, calculating and noticing tax increases, and ensuring the taxpayers have an opportunity to be heard before the final action takes place.

Chapter 200, F.S, sets forth the law with respect to the assessment, levy and collection of ad valorem assessments. The Truth in Millage (TRIM) laws are contained in Rule 12D-17, FAC and set forth the procedures necessary in order for a taxing authority to be considered in compliance with Section 200.065, F.S.

The district will schedule a least one (1) budget workshop with the Board of Commissioners before the proposed preliminary millage rate is set at the July Board meeting. During this workshop the budget committee and Board will discuss how to facilitate fiscal prudence and responsibility.

The Board will have two public hearings, the tentative and final budget hearings, to discuss the budget and the millage rate with an opportunity for the public to address the board with any questions or comments regarding the proposed budget and millage.

At the final budget meeting, the District will pass a resolution for the adoption of the final millage rate and budget.

Budget Amendment

A budget amendment is an increase in the total budget appropriations. The Fire Chief submits the budget amendment to the Board of Commissioners for approval. Budget amendment requests are submitted to the Board in the form of a resolution that clearly sets forth the proposed changes. The budget amendment will be advertised and two public hearings will be held prior to adoption of the resolution. The first budget amendment will be to adjust the cash brought forward, if necessary.

Budget Control

Budgetary controls are established at the fund level. Total expenditures within a fund should not exceed fund revenues plus available fund balance. In order to assure that any necessary budget amendments are approved prior to incurring expenditures, the District will adhere to the procedures for purchases and expenditures as described in Policy 882.

Revenue Sources

The District has two major funds: the general fund and the special revenue fund (also referred to as impact fees).

General Fund

The general fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The general fund is comprised of ad valorem taxes, interest, transfers from the impact fee account, fire prevention fees, and other miscellaneous fees.

• Fire Prevention Fees

The Fire Prevention division assesses a fee for new construction fire inspections, building plan review, and permitting in accordance with Resolution 12-06-02, which was approved by the Board of Commissioners on June 6, 2012.

In previous years, Fire Prevention saw an increase in collected fees due to the economic recovery and the reviewing of plans for other districts. As of October 1, 2018, Bonita Springs Fire Control will be reviewing fire plans for San Carlos Fire Control and Fort Myers Beach Fire Department.

• Vehicle Maintenance

Bonita Springs Fire Control is currently maintaining the fleet vehicles for San Carlos Fire Control, the City of Bonita Springs, USAR, and Tice Fire Department.

• Facilities Rental

Bonita Springs Fire Control charges a fee for the use of the District's stations.

• Radio Enhancement

The 2010 edition of the Florida Fire Prevention Code introduced the requirement for installation and maintenance of fixed public safety radio enhancement systems inside buildings that enable the use of portable radios within structures. The Code allows the authority having jurisdiction (AHJ) to accept an alternative to fixed, in-building public safety radio enhancement systems.

In 2010, the Bonita Springs Fire Control and Rescue District (AHJ) accepted a one-time payment to the District's *Wireless Communications Enhancement Fund* as an alternative to installing a fixed, in-building radio enhancement system. The purpose of the fund is to develop, deploy and maintain lower cost, advanced wireless alternatives.

The first use of these funds will be for vehicle repeaters. Essentially, this brings a vehicle-mounted radio repeater to the front of the building. This offers a stop-gap solution to a county network that was never designed for reliable in-building communications. This has resulted in considerable savings to a number of building owners since 2014.

Impact Fees

The Impact Fees Fund is another revenue fund. This fee is assessed by the County for improvements to infrastructure due to new construction. This special fund can only be used for new growth. The county attorney must approve all expenditures. Currently, impact fees are being used to pay the bond note on the construction of Station 4.

Fund Balance

Fund balance is defined as the difference between a fund's assets and its liabilities. It is essential that governments maintain adequate levels of fund balance to mitigate current and future risks (e.g., revenue shortfalls and unanticipated expenditures) and to ensure stable tax rates. Fund balance levels are also a crucial consideration in long-term financial planning. Credit rating agencies carefully monitor levels of fund balance and unreserved fund balance in a government's general fund to evaluate its continued credit worthiness. Those interested primarily in a government's credit worthiness or economic condition (e.g., rating agencies) are likely to favor increased levels of fund balance.

The fund balance is categorized into the five different components per GASB Statement No. 54:

- Non-spendable fund balance can never be spent
- Restricted fund balance- limitations imposed by creditors, grantors, contributors, laws and regulations, or by enabling legislation
- Committed fund balance- limitation imposed at highest level of decision making, requires formal action at the same level to remove (self-imposed limitations)
- Assigned fund balance- limitation resulting from intended use. Intended use is established by:
 - highest level of decision makers
 - body designated for that purpose
 - official designated for that purpose
- Unassigned fund balance- balance in excess of non-spendable, restricted, committed or assigned

The District auditors suggest that the District have at least 90 days of operating budget reserves and the maximum of 180 days. Currently, the District has an adequate fund balance level and a stable financial position.

Historical Data

| Year | Millage Rate | Gross Ad Valorem Revenue | Gross Taxable Value | Personnel* |

Debt Service 523-01-810 & 523-01-822 2018-2019

Station 4

The following is a summary of the long-term obligations at September 30, 2018:

\$6,298,494 note, payable monthly to a financial institution in the amount of \$38,101 including interest at 3.98% to finance the construction of Station #4. The note is uncollateralized. Final payment due August 22, 2023.

The District refinanced this note with BB&T on July 26, 2013, in the amount of \$3,775,786.60 at 2.11%, monthly payments of \$34,647.03. The note is uncollateralized. Final payment due is August 15, 2023. This will result in an estimated savings of \$421,419.72 over the course of the refinance.

Balance owed as of September 30, 2018 1,940,098

The annual debt service requirements for the following budget cycles:

| Budget Year <u>Oct to Sept</u> | | Note Payable (1) Principal | Interest |
|-----------------------------------|--------|-------------------------------|----------|
| 2019 4 2020 2021-2023 | months | 1,940,098 | 37,290 |
| Total Notes Payable | | 1,940,098 | 37,290 |
| | | 1,940,098 | 37,290 |

Debt service is paid from Impact Fees, if available which are transferred to and paid via the General Fund.

Future Capital Funding

History

In the past, the District has not had an adopted five year Capital Improvement Plan in place until the 2014-2015 budget year. The District did have a five year financial plan, and a recommended replacement schedule. However, with the Great Recession of 2009, and the decrease in property values the suggested replacement schedule was placed on hold as a necessity. In the 2008-2009 budget year, the Repair and Replacement reserve was re-formatted and based on accumulated depreciation. The Repair and Replacement reserve was renamed to Future Capital Funding. Included within this category are:

- Capital Improvements
- Equipment
- Office Equipment
- Vehicles

Recommendations

The Florida Governmental Finance Officers Association (FGFOA) and Governmental Finance Officers Association (GFOA) both recommend a Five-Year Capital Improvement Plan to be adopted and updated during each budgeting cycle. According to the Basic Government Source Manual, available on the FGFOA website; "Capital Planning prevents scarce resources from being consumed in reaction to crisis and provides for critical facilities, infrastructure and equipment to be replaced as they deteriorate during normal use." Having a capital plan will help officials with the financial decisions that could avert expensive mistakes. "Lenders and bond raters expect local governments to ensure that inherited assets from prior administrations are preserved or replaced in a timelymanner."

The Capital Improvement Plan should be proposed for items over \$5,000 that have useful lives of more than one year. Categories should include; buildings, equipment, vehicles, land, and office equipment, and IT equipment.

The Capital Improvement plan is based on the estimated life, repair costs, and regular assessments to the condition of an item. Each category has different conditions that need to be met for replacement. These conditions are listed before each category. Assessments are performed during inventory and reported on at the beginning of the budget cycle.

Process

During each budget cycle, the Deputy Chiefs will meet with the department heads, and assess the capital items within the District. Estimates will be obtained for budgetary purposes only. The estimates are then entered into the tentative budget. After the audit is presented to the Board of Commissioners the total accumulated depreciation is entered in the budget worksheet. Projections are updated and the estimated property values are obtained June 1st. During the budget process, meetings are held to discuss and to allow Department heads to explain the

reason for the request, and if there are any additional budgetary cost.

Future Stations

Future Stations and Land purchases are decided based on a number of factors; such as:

- Population growth
- Response times
- Call volume

Funding for Capital Improvement Plan

Funding for the Capital Improvement Plan can come from various sources, including the general fund, available grants, debt proceeds (loans), available impact fees, and user fees.

The Board of Commissions adopted Policy 885 - Future Capital Funding on July 14, 2014. This policy states that the Board of Commissioners should contribute a percentage of no less than 15% of the accumulated depreciation for capital improvements and 25% of the accumulated depreciation for the following fixed asset accounts:

- Equipment
- Office Equipment
- Vehicles

This policy also states that the Board of Commissioners include Future Station land and construction funding.

Buildings include any structure that is permanently attached to the land. Currently, the District has seven (7) stations located at:

- Station 21 27490 Old 41 Rd
- Station 22 28055 Mango Dr
- Station 23 25001 S. Tamiami Tr
- Station 24 27701 Bonita Grande Dr
- Station 25 8850 W. Terry St
- Station 26 16001 Bonita Beach Rd SE
- Station 27 26105 Hickory Blvd

Buildings are assessed during the year by the building maintenance staff and the report is given to the supervisor.

The facilities coordinator will assess the plumbing, electrical, roof, air conditioners and other equipment located at each station. The facilities coordinator bases his assessment amount on the cost of repairs to a particular item; by considering the condition and the life cycle of such items.

Items such as landscaping and painting are based on visual inspection and the last time such items were performed. Estimates are then obtained for budgetary purposes.

Funding for Machinery and Equipment

Machinery and Equipment includes:

- Fire Equipment such as extrication equipment, nozzles, thermal imaging cameras, SCBA (Self Controlled Breathing Apparatus)
- Radios and other communication devices, etc.

- Medical Equipment such as cardiac heart monitors, etc.
- Special Operations such as shoring, air bags, etc.
- Miscellaneous items including stoves, fuel pumps, generators for the stations, etc.

The Chief Officer or designee will assess equipment during the year. The criteria includes: life expectancy, use, technology advancements, repair cost and condition of the item. After the condition is inspected a list is compiled and submitted for budgetary use.

Items may be kept for longer periods of time if they are in good condition, still working and repairs are within a reasonable amount.

Funding for Office Equipment

Office Equipment includes:

- Computer Servers,
- Telephone Systems,
- Projectors
- Video Recording Equipment, etc.

The Chief Officer or designee will assess equipment during the year. The criteria includes: life expectancy, use, technology advancements, repair cost and condition of the item. After the condition is inspected a list is compiled and submitted for budgetary use.

Items may be kept for longer periods of time if they are in good condition, still working and repairs are within a reasonable amount.

Computers and IT equipment are assessed with our vendor. Replacements are purchased directly through Dell Computers on the state contract plan.

MDC's are replaced if they no longer work or the County changes programs and technology.

Funding for Vehicles

Vehicles are classified into two different categories:

- Apparatus
- Staff Vehicles

Apparatus has a 15 year on line and five year reserve depreciation rate. The staff vehicles are classified into two other categories with one being for staff in relations to fire prevention and the other is 911 responders.

- Fire Prevention use vehicles are generally replaced after 9 years.
- Chief vehicles are generally replaced after 7 years.

The District has a regular routine maintenance program and all vehicles are assessed by the EVT (Emergency Vehicle Technician) program prior to replacement.

The District takes into consideration mileage, projected use of the vehicle, maintenance cost associated with the vehicle, interior and exterior condition of the vehicle; including paint, body damage, rust, seat damage, dash, headliner, and overall condition.
